The Language and Learning Centre

Our aim, at the Language and Learning Centre, is to help you improve your English language and academic skills so that you will be successful in your studies at JCU Brisbane.

The Learning Advisers offer practical advice and strategies to assist you with the general study skills you require for University study. They also can help you to improve your English language skills for use in an academic environment. These skills include reading, writing, speaking and listening with a focus on how you use the skills in coursework and assignments.

Learning Advisers work with students from all programs and at all levels. So if you are an average student or even a High Distinction student who wants to maintain your grades, Learning Advisers can help you.

The Language and Learning Centre offers a drop-in service, one-to-one appointments and small group workshops which are advertised regularly.

So come and visit us on Level 8 in Room 801 and say hello. And check out the workshop schedule: workshops start in Week 1.

We look forward to working with you this Trimester.
